

The Universal Gaming Headset

PHONTUM S

Dual Earpad, Dual Life

A high-isolation quality audio experience for your home. Clear, light and portable audio for your travels and commutes. Phontum S is both at the same time. With the two included earpad sets, Phontum S gives you the best of two worlds.

Dual Chamber System

This advanced design allows Phontum S drivers to deliver a clearer distinction between bass, mid and treble audio outputs by increasing the space available for pressure releases. Start enjoying high-fidelity audio in your games!

Extra-large Drivers with Graphene Diaphragms

Phontum S 53mm drivers are equipped with graphene diaphragms that deliver audio with virtually no distortions.

HIGH QUALITY STEREO SOUND

53MM DRIVER
GRAPHENE DIAPHRAGM & DUAL CHAMBER DESIGN

One Headset to Hear Them All

No more carrying different headsets for different devices. Phontum S, with its 4 to 3 pole adapters, will work with phones, consoles, laptops, desktop computers and many other devices with 3.5mm audio jacks, allowing you to enjoy the best audio quality irrespective of where it comes from.
