

EPDM HIGH-DENSITY

The elastic and durable EPDM high-density tubing makes the minimal evaporation of liquid.

SUPERIOR FIN DENSITY

Massive 13 fins dissipate heat rapidly.

PWM ARGB FAN

Comes with powerful 120mm ARGB PWM radiator fans, providing practical functionality and strong cooling performance.

Air Pressure | 2.45 mmH₂O

Noise Level | 31 dB(A)

EXTREME COOLING PERFORMANCE

800±200~1800±10% RPM

ARGB Headers

Connected to the fan's ARGB connector. Each header supports up to 48 LEDs, 120 LEDs for 4 headers in total.

CPU SOCKET COMPATIBILITY Intel compatibility: LGA 115X / 1200 / 1700 / 1851 / 20XX AMD compatibility : AM3 / AM4 / AM5

Mode Control

Long press for 3 seconds to switch to motherboard control and single press for switching back to the button control.

- GENRCE RTX

INCLUDED ARGB CONTROLLER WORKING IN SYNC WITH THE MOTHERBOARD

The included ARGB controller works with the motherboard, customizing each individual LED in color and effect.

ARGB Connector Connect it to the motherboard for lighting effects in sync.

SATA Connector
Connect it to the SATA connector
of the power supply.
